## **MCEDC Hires Angela Determan as Project Manager**

The board of directors of the Mason City Economic Development Corporation is pleased to announce the hiring of Angela Determan as Project Manager. She joins executive director Dan Culhane and development specialist Ken Bales to round out the team responsible for proactively marketing Mason City to prospective industry and providing timely assistance to the Mason City business community.

Angela's duties will include the management of all MCEDC publications, research and data compilation on various projects, and she will jointly implement the MCEDC Business Retention and Expansion program with Ken Bales.

"We are thrilled that Angela agreed to join our staff. Her background, coupled with her knowledge of Mason City and North Iowa as well as her work as a volunteer on past MCEDC capital campaigns give her the understanding of what we do that will make her a valuable member of our team," said Dan Culhane. "While she will focus primarily on the existing industry program, she will also work with Ken Bales on the annual capital campaign and handle all of our publications like the newsletter, our Quarterly Economic Report, and the management of our website, which has become an integral tool in our marketing efforts," noted Culhane.

Besides her volunteer efforts for the MCEDC, she has also given considerable time to many other worthy groups and organizations, like the Newman Catholic School system in Mason City, the Mason City Chamber of Commerce, the Mercy Health Foundation Planned Giving Advisory Council, the Mason City Family YMCA and the United Way of North Central Iowa.

Angela is a native of Mason City and attended Northeast Iowa Area Community College and North Iowa Area Community College. She has graduated from Norwest Trust School on Investment as well as the Cannon Financial Institute at the University of Notre Dame. She and her husband, Randy, have four sons, Matthew, Scott, Michael, and J.D.

You can reach Angela at 423-5724 or via email at [adeterman@masoncityedc.com](mailto:adeterman@masoncityedc.com).
